AI-GENERATED

Narrative (AI-generated summary of the deterministic record below)

Outcome: COMPLETED. Merchant: Beanline Coffee. Order number: BL-0D7EE821.

Requested purchase: one bag of house blend and two boxes of filters, described as under \$30, currency USD.

Authorization metadata: gate_verdict = PASS; visa_confirmation = SUCCESS; chain_valid = true; failed_rules = [] (none); event_count = 11.

Credential handling: full payment tokens and dynamic CVVs are held in memory only and never persisted, logged, or included in this packet. This record stores the token's last four digits, its expiry, and the transaction reference only.
